AMANDHI SIRIWARDENA

Third-year BSc (Hons) Data Science student at SLIIT with strong foundation in Python, SQL, and BI tools. Experienced in ETL pipelines, data warehouse design, and interactive dashboards. Passionate about transforming data into actionable insights and contributing to real-world data engineering projects.

EDUCATION

SLIIT

BSc (Hons) in Information Technology (Specialization: Data Science) - 3.41 GPA 2022 - present

PROJECT

Vendor Performance Analysis July 2025

- Analyzed multi-table retail dataset using Python (Pandas, SQLite) to assess vendor performance in purchases, sales, and inventory. Created KPIs to identify top vendors, pricing gaps, and slow-moving stock. Built Power BI dashboards visualizing vendor contribution, sales metrics, unsold capital, and brand performance. Conducted exploratory analysis with Seaborn and Matplotlib in Jupyter Notebook.

StayBerlin DW Apr 2025 - Jun 2025

- StayBerlin Data Warehouse: A data warehouse built on the Berlin Airbnb dataset to analyze accommodation details, pricing, and occupancy trends across neighborhoods. Implemented ETL with SSIS, multidimensional modeling with SSAS, and developed interactive Power BI and Excel dashboards for trend analysis and decision support.

Lunumirisa -resturant management system Aug 2024 - Nov 2024

- Designed and developed the Supplier Management Module for a restaurant management system using the MERN stack. Implemented CRUD operations, automated report generation, and email verification to streamline supplier handling. Ensured seamless integration with other system modules, enhancing overall operational efficiency and reliability.

NexLearn -skill sharing social media Apr 2025 – Jun 2025

- Developed a dynamic progress tracking feature enabling users to share learning updates through predefined templates (e.g., course, skill, project).Implemented create, update, delete, and like functionalities to enhance user engagement and collaboration. Built a flexible and scalable backend with Spring Boot and MongoDB, seamlessly integrated with a React.js frontend.

SKILLS

- Programming & Scripting: Python (NumPy, Pandas, Matplotlib, Seaborn, TensorFlow, Scikit-learn), R, Java, JavaScript
- Web Development: React.js, Node.js, Express.js (MERN Stack)
- Data Analytics & Visualization: Power BI, Tableau, Excel
- Databases: SQL, MongoDB, Oracle
- Other Tools: Git/GitHub, SSIS, SSAS

Certifications & Awards

- Diploma in Information Technology (Esoft Metro Campus, Pearson Assured)
- Dean's List Academic Excellence Award – SLIIT, 1st Year, 2nd Semester, 2023 (Awarded May 2024)
- AWS SimuLearn Modules: Computing Solutions, Connecting VPCs, Networking Concepts, File Systems in the Cloud (Completed Aug 2025)
