Dimethro Ramika Randew Jayasuriya

Date of birth: 03/12/2004 | **Nationality:** Sri Lankan | **Phone number:** (+94) 769694283 (Mobile) | **Email address:** dimethro@gmail.com | **Website:** dimethro.com | **LinkedIn:** linkedin.com/in/dimethro-jayasuriya/ |

Whatsapp Messenger: +94757609609 |

Address: 381,Sudarmarama Road,Wanawasala, Kelaniya, 11600, Kelaniya, Sri Lanka (Home)

About me:
As a highly motivated postgraduate with a passion for technology, I am seeking a challenging and dynamic position in the IT industry that will enable me to develop my skills and knowledge in Cyber Security, Cloud Computing, and Software Engineering in Java and Python. With a focus on innovation, teamwork, and continuous learning, my goal is to become one of the best IT tech bosses in Sri Lanka and a leading figure in the fields of Cyber Security, Cloud Computing, and Software Engineering. I am committed to staying up-to-date with the latest trends and technologies in the industry and to applying my expertise to provide effective solutions to complex business challenges. With my strong work ethic, leadership skills, and dedication to excellence, I am confident that I can become a very successful person in my country and make a significant contribution to the development of the IT industry

WORK EXPERIENCE

03/2019 – CURRENT Kelaniya, Sri Lanka

COMPUTER HARDWARE, SOFTWARE AND NETWORK TROUBLESHOOTING WITH WEB HOSTING MAINTENANCE. E-BRIDGE (PVT) LTD

Computer Hardware Maintenance:

Inspect, diagnose, and repair hardware components, such as motherboards, hard drives, power supplies, and peripherals like printers and scanners
Upgrade and replace outdated or defective hardware components as needed
Install, configure, and test new hardware components and peripherals
Perform routine maintenance tasks, such as cleaning and dusting computer systems to prevent overheating

Network Maintenance:

Monitor network performance to ensure that it is operating at peak efficiency
Troubleshoot and diagnose network problems, such as slow connections or dropped connections
Install and configure network components, such as routers, switches, and firewalls
Maintain network security by implementing security measures such as firewalls and VPNs
Develop and maintain documentation of network topology and infrastructure

Software Maintenance:

Install and configure operating systems and software applications
Update and patch software applications and operating systems to ensure security and functionality
Monitor software performance and diagnose problems, such as crashes and system errors
Troubleshoot software issues and work with end-users to resolve them
Develop and maintain documentation on software configuration, installation, and troubleshooting procedures.
