TECHNICAL SKILLS

- **Programming Languages**
  Java, C#, Python, [C/C++]
- **IAM Standards**
  OAuth2, OIDC, [SAML] (authorization, SSO, federation)
- **Web Development**
  HTML5/CSS, JavaScript, TypeScript, Node.js
- **Frameworks**
  Spring Boot, .NET, Angular, Express, Bootstrap
- **Databases**
  MySQL, PostgreSQL, [MS SQL Server, MongoDB]
- **Version Control**
  Git / Github / Gitlab
- **Development**
  VS Code, IntelliJ Idea

EDUCATION

University of Peradeniya, Sri Lanka
BSc. Engineering (Hon's) –Specialize in Computer Engineering
[Accredited in accordance with Washington Accord]
2016 – 2020

INDUSTRIAL EXPERIENCE

Consultant – Virtusa ***February 2022 – Present***
Focusing on Golang, GCP functions, workflows, firestores, storage use cases.
[CI/CD flow configurations with gitlab pipelines]
Agile software development practices (Scrum) following within team.

Software Engineer – WSO2 Inc. ***Oct 2020 – Oct 2021***
WSO2 IAM CS Team (*WSO2 Certified Identity Server Developer – V5*) focusing on specifically IAM domain standards, applying them on product improvements through OOP concepts, customer specific projects and customer query handling (JIRA).

Technologies: Java, MySQL/H2/PostgreSQL, SOAP, RESTful WebAPIs, JSON, XML, (cURL/Postman)

IAM Standards: OAuth 2, OIDC, [SAML] (authorization, SSO, federation, provisioning)

Contribution:

- Product improvement for "*Device Flow Grant*" implementation as of *rfc8628* with bug fixes
- Customer specific project to automate Service Provider, Identity Provider configurations and adding new permission model with curl and soap requests/APIs to implement Identity federation & User accounts association
- Customer specific UI customization by rebranding product UIs
- Customer tickets handling by answering to their queries related to the product

Intern – IFS ***Feb – July 2019***
Modified the Web Application built for recording CSR activities of employees and an Application in organizing the Training programs of employees and partners.

Technologies: Angular, Spring Boot, C#/.NET, PL/SQL, Java, MySQL

Contribution: Modified the Web Application with extra features and implemented the Application

COURSES

- Server-side Development with NodeJS, Express and MongoDB - Coursera

PROFESSIONAL AFFILIATIONS

- WSO2 Certified Identity Server Developer - V5
- Member of **Institution of Engineers Sri Lanka (IESL)** (S-23354)

INTERESTS

- Software / Web Development
- Algorithms & Data Structures
- Machine Learning

STRENGTHS

- Work Experience
- Ability to work with a team
- Willing to learn new tech stacks
- Good Communication & Presentation skills
- Punctuality

PROJECTS

- **Flight Management Rest API (Individual)**

A Spring Boot Rest API to manage airplane operations and search flights.

Technologies: Java/Spring Boot, JPA/Hibernate, MySQL (Postman)

- **PeraEMS-Project**

PeraEMS is a web based e-System for Health Center of University of Peradeniya to make its tasks easy.

Technologies: html/css, bootstrap, php, MySQL

Contribution: Front End designs, Resources gathering

- **Automated-Weather-Monitoring-and-Alerting-System**

A System that can be used to collect weather parameters from different places using an embedded system, process them and warn in case of extreme weather conditions automatically. Quicker than manual method. Preferred to be used in Meteorological Department.

Technologies: Java, Arduino, html/css, javascript

Contribution: Front End designs, Data collecting processes from sensors

- **Keystroke Dynamics Based Biometric for Remote User Authentication Schemes**

Authenticate users by the way of their keystroke dynamics trained through Machine Learning. Key press and release timing data were trained to identify users.

Technologies: Angular, Spring Boot, Python

Contribution: Analyzing of the keystroke attributes and Literature Survey

- **GreenChef**

A webapp, which could suggest you meal plans and give details about nutritional levels (HACKATHON Project 2018).

Technologies: html/css, bootstrap, servlet, php, MySQL

Contribution: Front End designs, Meal planning with gathering nutritional levels
