PROFILE SUMMARY

A recent BSc (Hons) Software Engineering graduate with hands-on experience in full-stack web development using **Laravel** and modern web technologies. Proficient in applying **design patterns** and industry **best practices** to build scalable, secure, and maintainable applications. Experienced in the full software development lifecycle with a strong focus on problem-solving and clean code. Passionate about developing innovative solutions, contributing to collaborative team projects, and continuously advancing technical expertise in software engineering.

SKILLS SUMMARY

Programming languages : PHP , JavaScript , Java , HTML , CSS
Frameworks / Libraries : Laravel , Bootstrap
DBMS : MySQL , MsSQL
Tools : Github , Figma
Soft Skills : Team player , Excellent communication , Adaptability , Problem-solving

EXPERIENCE

Software Engineer – Intern **Oct 2024 - Apr 2025**
Circlebook (Pvt) Ltd

- Worked with cross-functional teams to deliver projects efficiently while following best practices.
- Developed applications using **Laravel** and contributed to **SaaS-based** application development during the internship period.
- Involved in the full development lifecycle, from design to implementation.

PROJECTS

Optcare - Individual Project **May 2025 - Sep 2025**

Optcare is an AI-powered web application designed to diagnose retinal conditions using **deep learning**. The platform also integrates telemedicine services, an e-commerce module for eye care products, and an educational portal for vision health awareness. Built using the **MVC** architecture and the **Facade** design pattern.

Frontend Technologies: Laravel Blade Templates, Bootstrap 5, Toastr.js, JavaScript, jQuery
Backend Technologies: Laravel (PHP), MySQL, Python (Flask)
Source Code : Github.com/Chamod Mullegama/Optcare

Project management system - Individual Project **Sep 2024 - Nov 2024**

Developed a project management system with a seamless single-page application using **MVC** architecture and the **Facade** design pattern to enhance maintainability and readability.

Frontend Technologies: React js, Inertia js
Backend Technologies: Laravel (PHP), MySQL
Source Code : Github.com/Chamod Mullegama/project-managment

Mega City Cab - Individual Project **Feb 2025 - Mar 2025**

A cab service management system with Admin, Customer, and Driver panels. Built using **MVC** architecture, **Singleton** and **Factory** design patterns, **OOP** concepts, and **SOLID** principles.

Frontend Technologies: HTML, CSS, JavaScript, Bootstrap, Toastr.js, jQuery
Backend Technologies: Java EE, MySQL
Source Code : Github.com/Chamod Mullegama/MegaCityCab

Sk Fashion Website - Group Project **Jan 2024 - Apr 2024**

My role in the SK Fashion website project centered on crafting a **backend** system to seamlessly integrate data and ensure efficiency. By combining frontend and backend technologies, I optimized the browsing and purchasing experiences for customers while delivering comprehensive information about the shop and its services.

Frontend Technologies:- HTML, CSS, JavaScript, Bootstrap
Backend Technologies:- PHP, MySQL

EDUCATION

BSc (Hons) in Software Engineering & Computing **Nov 2024 - Nov 2025**
International College of Business and Technology

Higher Diploma in Computing and Software Engineering **Sep 2022 - Sep 2024**
International College of Business and Technology

G.C.E. Advanced Level (Physical Science Stream) **2020**
Kingswood College Kandy | C-1 , S-2
