Charitha Jayathilaka

Experience

Associate Software Engineer (May 2022 - Present)
EWIS Career Training Centre Kandy, Sri Lanka

- Corrected issues in software to fix performance issues and improve usability.
- Used Bootstrap, JavaScript, AJAX and PHP to plan, test and implement various web-based applications.
- Communicated with users and conducted studies to formulate solutions.
- Developing WordPress websites that meet client requirements.
- Collaborated with a team to deliver high-quality software solutions.
- Used version control systems like GIT.
- Managed remote desktop operations for various server environments, including Linux and Windows servers and troubleshot issues related to server performance and connectivity.

Support Associate (July 2019 - May 2022)
My Digital office Kiribathgoda, Sri Lanka

- Received and addressed customer complaints, investigating the root cause and managing related corrective measures.
- Monitored and analyzed performance metrics of IT systems and implemented changes to optimize system performance.
- Utilized Jira and TeamWork software to manage multiple projects simultaneously, ensuring timely delivery and quality results.
- Collaborated with cross-functional teams to plan and execute project deliverables, utilizing software to track progress and identify potential roadblocks.

Education

- **Cardiff Metropolitan University**
  BSc.(Hons) in Software Engineering
  Upper Second Class (2018 - 2021)
