Summary

Creative and passionate UI/UX Designer and Front-End Developer, currently an undergraduate at Sri Lanka Institute of Information Technology. Experienced in crafting intuitive, responsive, and visually engaging digital experiences across web and mobile platforms. Skilled in user centered design, wireframing, prototyping, and frontend development using modern technologies. Proficient in tools such as Figma and Adobe XD, with a strong grasp of usability principles, accessibility, and design systems. Dedicated to transforming complex problems into elegant, user-friendly solutions that enhance user satisfaction and deliver business value.

Technical Skills

- **Design & Prototyping:** Figma, Adobe XD, Interactive Prototypes, High Fidelity Wireframes
- **UX Research & Analysis:** User Research, Competitive Analysis
- **UI Design:** Color Theory, Layout Grids, Neumorphism, Responsive Design
- **Programming Languages:** Java, HTML, CSS, JavaScript
- **Frameworks & Libraries:** Spring Boot, React.js
- **Databases:** MySQL, MongoDB
- **Developer Tools:** Postman, VS Code, MySQL Workbench
- **Version Control & Other Skills:** GitHub, Debugging, Exception Handling.

Education

Sri Lanka Institute of Information Technology — Colombo, Sri Lanka
BSc (Hons) Information Technology **|** 3rd Year **|**2023-Present

Ranabima Royal Collage — Kandy, Sri Lanka
Advanced Level in Physical Science | 2018- 2020

Ranabima Royal Collage — Kandy, Sri Lanka
Ordinary Level | 2017

Projects

Sienna Retreat – Hotel Website UI

Tools: Figma, Photoshop

- Designed a luxurious and user-friendly hotel booking interface for *Sienna Retreat*.
- Designed intuitive room selection flows and a seamless reservation process, ensuring a visually appealing and hassle-free booking experience.

Smart Schooler – Web Application

Tools: HTML, CSS, Java, JavaScript (Collaborative)

- Developed a collaborative application to post achievements and create personalized learning plans.
- Enabled users to post, re-post, like, comment, and organize learning activities efficiently.
- github.com/Binuka321/Smart–Schooler

Home Inventory Management System – Web Application

Tools: MERN Stack (Collaborative)

- Developed an application to manage household grocery items, allowing users to add items via voice input or manual entry.
- Implemented expiry alerts to notify users one week before items expire.
- Enabled stock threshold alerts, notifying users when item quantities fall below set levels.
- Provided reporting features to track usage, expenses, and remaining stock.
- github.com/Dinuka24-coder/StockMate-Home-Inventory-Management-System

Fuel Station Management System – Web Application

Tools: MERN Stack (Collaborative)

- Developed an application for fuel station inventory and operations management.
- Allowed admins to track fuel litter and other items [grease, oil cans, nuts, etc.] received at the station.
- Implemented fuel alerts when remaining fuel falls below 5,000 liters, enabling timely reordering from suppliers.
- Applied the same inventory management system for other items, with alerts for low stock.
- Provided reporting features to monitor expenses, income, and remaining fuel.
- github.com/Ahamed-Rahman/ ZenoFuelStation_ITP

Online Hotel Reservation System – Web Application

Tools: Java, JavaScript, HTML, CSS

- Developed a web application that allows users to browse hotel options and book rooms based on their requirements.
- Enabled selection of number of rooms, number of guests, and meal preferences during booking.
- Provided admin functionality to generate monthly income reports and monitor reservations.
- Focused on delivering a user-friendly and efficient booking experience.

Certificates

- Comprehensive UI/UX Design- FSD Academy
- Principle for UX Design-LinkedIn
- UX Foundations: Research- LinkedIn
- Using AI Tools for UX Design- LinkedIn
- Using AI for UX Design and Research- LinkedIn
- Learning Spring 6 with Spring Boot 3
- Introduction to HTML5-Coursera
- Programming for Everybody (Getting Started with Python)- Coursera
