Professional Summary

I am a passionate Frontend Software Engineer with 2+ years of experience building responsive and dynamic web applications using ReactJS, TypeScript, and modern UI libraries like Material-UI and TailwindCSS. Proficient in state management (Redux, Context API) and REST API integration, I have a strong focus on delivering seamless user experiences. I also have experience with unit testing (Jest). Eager to contribute to innovative projects and collaborate with cross-functional teams to create high-quality, user-centric applications.

Technical Skills

Programming Languages/Frameworks

- **Frontend**: ReactJS, JavaScript/TypeScript, TailwindCSS, Material-UI, PrimeReact, Ant Design
- **Backend**: NodeJS, ExpressJS
- **Database**: MongoDB, MySQL
- **Testing**: Jest
- **CI/CD & Deployment**: Docker, Jenkins, AWS

State Management & Libraries

- Redux (Thunk, Saga), Context API, MobX

Full-Stack Development

- MERN Stack (MongoDB, ExpressJS, ReactJS, NodeJS)
- REST API development and integration
- User authentication and authorization (JWT, session cookies)
- File uploading and management
- Progressive Web App (PWA) implementation

Work Experience

Software Engineer
Informatics International Limited, Bambalapitya, Sri Lanka
April 2024 - November 2024

- Developed responsive and dynamic web applications using **ReactJS**, **TypeScript**, **Material-U**I, and **Ant Design**.
- Practiced Agile development methodologies with Jira, including daily stand-ups and retrospectives, to enhance team collaboration and project efficiency.
- Collaborated with backend developers, UX/UI designers, and stakeholders to gather requirements and deliver seamless user experiences.
- Utilized Webpack's module federation to develop a scalable and maintainable codebase.
- Ensured timely delivery of high-quality outputs by adhering to project timelines.

Software Engineer
Egreen, Horana, Sri Lanka
September 2022 - March 2024

- Developed mobile-responsive frontends using **ReactJS**, **TypeScript**, **Material-UI**, **TailwindCSS**, **Redux**, and **MobX**.
- Integrated REST APIs with the UI, using Redux Thunk and Redux Saga for asynchronous data fetching.
- Resolved an iOS-specific white-screen error in a web application for Union Assurance.
- Implemented caching in a service worker to enable Progressive Web App (PWA) features.
- Wrote unit tests for React components using Jest.

Education

Master of Science in Computer Science (Reading)
University of Sri Jayawardenepura, Colombo

Bachelor of Science in Engineering (2014-2018)
University of Ruhuna, Galle

Personal Projects

Student Management System (Feb-2024)

- Technologies: **MongoDB**, **ExpressJS**, **ReactJS**, and **NodeJS**.
- Implemented user authentication and authorization using JWT.
- Managed file uploads and user sessions with session cookies.
- Designed and integrated RESTful APIs for seamless data flow.

CeylonTravelLife Web Application(Jan-2025)

- Technologies: **MongoDB**, **ExpressJS**, **ReactJS**, and **NodeJS**.
- Designed the frontend using Figma and developed it using **ReactJS**.
- Implement RESTful APIs using **NodeJS** and **ExpressJS**
- Provided details of tourist attractions based on user location.
- Followed a test-driven development (TDD) approach using Jest.
- Implemented user authentication with JWT and managed sessions using cookies.
- Containerized the application using Docker and set up CI/CD pipelines with Jenkins.
