Hackathons

ACES Coders v 10.0
University Of Peradeniya | 2023
12 hours team based algorithmic coding competition

Code Rush
University Of Moratuwa | 2022
Team based algorithmic coding competition

HackDoze 1.0 (7th place)
University Of Ruhuna | 2022
Individual algorithmic coding competition

Mora Extreme 7.0 (8th place)
University Of Moratuwa | 2022
Team based algorithmic coding competition

Mora Extreme 8.0
University Of Moratuwa | 2023
Team based algorithmic coding competition

Projects

Ledger Management System
(Responsible for the frontend)
A ledger management system for landing sale business to manage their customers' monthly payments and generate reports.
Tech Stack - Angular, Angular Material, Firebase, GitHub Actions

Movie Review Analysis With Python
A ledger management system for landing sale business to manage their customers' monthly payments and generate reports.
Tech Stack - FastAPI, Pandas, scikit-learn, NLTK, Docker, GitHub Actions

Call Center Communication Analyzer (Ongoing)
A system to analyzer customer feedback call recordings and provide insightful analytics and data visualizations.
Tech Stack - FastAPI, Angular, MongoDB, Tailwind CSS, GitHub Actions, Chart.js, PrimeNG, Docker, AWS S3 Bucket, AWS Lambda Functions, Amazon Comprehend, LangChain
