

Induwara Uthsara

Web Developer

Profile

I'm a 17 years old self-learned web developer and i have three years (2018-2021) experience on IT and Web development industry. Currently , I am learning Web Development further and doing my A/L studies. I'm interested in working with a Web Development Yeam and to develop my knowledge , skills and experience. I hope to have an excellent experience by joining you as a intern.

I have passed G.C.E. (O/L) examination in 2020 with "A" Passes for ICT & Mathematics Subjects.

2021 July — **Introduction to Cyber Security**
Cisco Networking Academy
Badge URL :
https://www.credly.com/badges/2bfa1938-c4a4-45b1-97b1-c9eb20491cbb

2021 July - November — **MERN Stack Course**
SPARK Academy
4 month **MERN Stack** (MongoDB, ExpressJS, ReactJS, NodeJS) Development Course

Work Experience

Multimedia Content Creator
Srijaya Print House (2021 May - Present)
Graphic Designer (Photoshop, CorelDraw, Illustrator, MS Office) & Web Developer (HTML, CSS, JS, React, PHP, MySQL) at Srijaya Print House

Projects

Library Management System
using MERN Stack (Mongo DB, Express JS, React JS, Node JS)
Develpoed Web based Library Management System with MERN Stack.
- Frontend (ReactJS) : github.com/induwarauthsara/lms
- Backend (ExpressJS) : github.com/induwarauthsara/lmsBackend
- Youtube : www.youtu.be/WNu4Tfo9qq0

POS System for Printing Shop
using HTML, CSS, Javascript, PHP & MySQL
It's a POS System which is a combination of User Management System, Employee Management System & Stock management System. This is My First Real World Project.

LMS User Registration Page
using HTML, CSS, Javascript
Developed Library Management System user Registration Page with HTML, CSS & Javascript. It's fully input validated with Javascript and Style with pure CSS (without any framework)
- Github : www.github.com/induwarauthsara/library-user-Registration-form
- Youtube : www.youtu.be/-gcS37xmOZ0

Simple Portfolio
using HTML & CSS
- www.induwara.ml

Developed my personal Website in 2019. But this isn't Mobile Responsive & user-friendly. So I decided to Develop a new Portfolio with Modern Design. By now I am designing it's interface using Figma. I have planned to Develop & Deploy it before end 2021.

Send Online Vesak Greeting Card
using HTML, CSS & PHP
We Couldn't Share Vesak Cards in past years due Covid pandemic. So I thought to Develop Online Vesak Card Sharing Platform. At the moment that domain has expired. But I have Uploaded that Source Code to • Github : www.github.com/induwarauthsara/VesakCard

Happy New Year Pattern
using Python
It's Output a "Happy New year [user input name]" in Triangle Pattern.
- Source Code : www.github.com/induwarauthsara/happynewyear
