Dear Sir/Madam,

I am writing to express my keen interest in the Software Engineer Internship position at your company. I am highly motivated and passionate undergraduate student in Information and Communication Technology (Hons), specializing in Software Engineering at the University of Sri Jayewardenepura, I am eager to gain practical experience and contribute my skills to a dynamic and innovative organization like yours.

Throughout my academic journey, I have developed a strong foundation in software engineering principles and best practices, including object-oriented programming, data structures, algorithms, and software design patterns. Other than that i have knowledge in java-script and MERN strack. I am proficient in various programming languages, such as Python, Java, C,html and css and I am mainly focus in developing web applications.

My academic achievements and extracurricular activities demonstrate my dedication to learning researching and problem-solving.

Furthermore, I have 3 years experience as a business executive in insurance at Softlogic life has equipped me with essential soft skills, such as teamwork, communication, Empathy and emotional intelligence and adaptability. I am a highly motivated and results-oriented individual with a strong work ethic and a willingness to learn and grow.

I am confident that my technical and professional skills, academic background, and eagerness to learn make me an ideal candidate for your Software Engineering Internship program. I am excited about the opportunity to contribute to your team's projects, learn from experienced professionals, and gain valuable industry experience.

Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,

Lahiru Pathum
