linkedin.com/in/muditha-bandara 'Ajantha', Ganethenna, Hingula, Sri Lanka

As a fourth-year Software Engineering undergraduate with a strong academic record and a passion for programming, game development, and web development, I am eager to learn new technologies, enhance my skills, and expand my industry experience. I aim to use my knowledge and passion to contribute meaningfully to innovative projects and create solutions that benefit society.

EDUCATION

Sri Lankan Institute of Information Technology - SLIIT, Malabe, Sri Lanka

Bachelor of Science (Hons) in Information Technology - Software Engineering

Expected Graduation – Nov. 2026

- Dean's List Award for 3 consecutive semesters
- CGPA | 3.53 / 4.00

Dharmaraja College, Kandy, Sri Lanka

G.C.E. Advanced Level

Jan. 2017 – Apr. 2019

- Biology Stream
- Grades | S S S

Dharmaraja College, Kandy, Sri Lanka

G.C.E. Ordinary Level

Aug. 2009 – Dec. 2016

- Grades | 6A 1B 2C

EXPERIENCE

C++ Instructor

Self-Initiated, Online

Feb 2024 – Jul 2024

- Conducted weekly classes for beginner IT undergraduates.
- Covered the basics of C++ accordingly to the course learning materials.

PROJECTS

Tax-Trail Mobile Application

React Native | TypeScript | Node.js (Express)

Jul 2025 - Sep 2025 Repo

- Built a modern mobile application to promote public budget transparency under SDG 10: Reduced Inequalities.
- Lead the project as Project Leader and act as the Product Owner (Agile).
- Implemented secure authentication with Appwrite.
- Implemented Predictive Budget Analysis and Forecasting Insights using LangChain + Groq.
- Developed financial visualization charts for improved decision-making.
- Tools – VS Code | Expo | Git | GitHub | MongoDB | Appwrite | LangChain | Groq AI

INTERESTS

- Back-end Development
- Full-stack Development
- Game & Application Development
- Mobile Application Development
- AI & Machine Learning
- Healthcare Technology Solutions

LANGUAGES & FRAMEWORKS

Java | C | C++ | Python | JavaScript | TypeScript | React.js | Node.js | Express.js | React Native | Spring Boot | Kotlin | R | SQL | T-SQL | PL/SQL | Oracle SQL | HTML | CSS | Tailwind CSS | PHP | Shell

TOOLS

Git | GitHub | Postman | Docker | Kubernetes | VS Code | Eclipse | IntelliJ IDEA | Apache Netbeans | DevC++ | Android Studio | Expo | Figma | MongoDB | MySQL | MS SQL | Appwrite | Groq AI | LangChain | Selenium | Cypress | Ubuntu | Firebase | Apache Tomcat | XAMPP | WAMP Server

STRENGTHS

Problem Solving | Critical Thinking | Quick Learner | Attention to Detail | Leadership | Work Ethic | Teamwork | Time Management | Collaboration

Green Loop – Smart Waste Management System

MongoDB | Node.js (Express.js) | React.js (Vite) | Tailwind CSS

Jan 2024 - Jun 2024 Repo

- Built a Full-Stack Smart Waste Management System using the MERN stack to improve waste collection, scheduling, and recycling.
- Lead the project as Project Leader.
- Implemented secure JWT authentication, role-based access control, and OAuth login with Firebase.
- Built dashboards with real-time waste tracking, analytics, charts, and automated collection scheduling using factory pattern logic.
- Integrated Stripe for seamless payment processing.
- Tools – VS Code | Git | GitHub | MongoDB | Stripe | Firebase

AutoBook - Automotive Service Integration System

MongoDB | Node.js (Express.js) | React.js

Jul 2024 - Oct 2024 Repo

- Built a Community Forum for the AutoBook Web Application using MERN stack framework, and GitHub collaboration and version control, with proper CRUD functionalities and UI.
- The aim of the AutoBook web application was to create a centralized system for the automotive community as a group project for the IT Project Module.
- Tools - VS Code | Git | GitHub | MongoDB

LEETGames - Online Gaming Web Application

Java

Feb 2024 - Jun 2024 Repo

- Built an Online Gaming Web Application using Java as a requirement for the Object Oriented Programming module.
- Lead the project as Project Leader.
- Designed UI and CRUD functionalities according to MVC architecture.
- Tools - Eclipse | Apache Tomcat | MySQL Server

DropMe - Online Public Transportation Reservation System

HTML | JavaScript | PHP | CSS

Jul 2024 - Oct 2024 Repo

- Built an Online Public Transport Reservation System using HTML, JavaScript, PHP, and CSS.
- Lead the project as Project Leader.
- The project was carried out as a requirement for the Internet and Web Technologies module.
- Designed a web application with basic UI and CRUD functionalities and JavaScript validation.
- Tools - Notepad++ | XAMPP Web Server | MS SQL Server

Task Manager - Mobile Application (Individual Project)

Kotlin

Sep 2024 - Oct 2024 Repo

- Developed a CRUD application using Kotlin and SQLite
- The project was carried out as a requirement for the Mobile Application Development module.
- Tools - Android Studio | Figma | GitHub

TECHNICAL SKILLS

- Data Structures & Algorithms
- Design Patterns
- Database Management
- Object-Oriented Programming
- RESTful API Development
- System & Software Architectures
- Agile Methodologies
- Full-Stack Development
- Mobile Application Development

EXTRACURRICULAR

Assistant Scout Leader

Sri Lanka Scout Association - SLSA

2017 - Present 1st Kandy Dharmaraja

President's Scout Award

Sri Lanka Scout Association - SLSA

2017 1st Kandy Dharmaraja

Student Member

IEEE

2025 - Present Asia & Pacific | Sri Lanka

Volunteer - Finance Team Member (CyberShield 4.0)

IEEE Computer Society

Apr 2025 - Jul 2025 SLIIT

Member

SLIIT FOSS Community

2024 - Present SLIIT
