## EDUCATION

**Bachelor of Software Engineering**
The Open University of Sri Lanka
Jan 2023 – Dec 2026

**GCE A/L**
Rajapaksha Central College
Jan 2018 – Dec 2021

## SKILLS

**Project Management**

- Agile
- Scrum

**Tools**

- Git / Git Hub
- Docker

**Academic**

- Data Structures & Algorithms
- OOP/OOD Principles
- SOLID Principles

**Languages**

- Sinhala - Native
- English – Intermediate

## OBJECTIVE

A dedicated and detail-oriented software engineering undergraduate with a strong foundation in modern development frameworks, seeking an internship to apply technical skills and contribute to impactful projects. Experienced in team collaboration and passionate about continuous learning and innovation in software development.

## TECHNICAL EXPEREANCE

**Experience in**

- SQL
- Java
- React.js
- Node.js
- JavaScript
- Python
- C++
- Express.js
- API(RESTful)
- HTML
- CSS

**Familiar with**

- QT
- PHP
- TypeScript
- Docker
- AWS
- Google Cloud Platform

## PROJECT EXPERIANCE

**eCommerce Web Application – “Store Web”**
Developed a full-stack e-commerce web application using the MERN stack, implementing RESTful APIs, a modular backend architecture, and centralized error handling. Leveraged MongoDB for database management and used Tailwind CSS for a responsive frontend design.

**Technologies** : React.js, Node.js, Express.js, MongoDB

**Desktop Application – Personal Assistance**
Real Time response to voice commands, Desktop Application handling

**Technologies** : Python
**GPT Models** : gpt4all – Falcon Q04, Whisper

**Web Application – Time Schedule**
Time schedule management for University (For OUSL)

**Technologies** : React.js, Node.js, Express.js, MongoDB
