PROFILE

I'm currently pursuing a degree in Software Engineering with a strong passion for programming languages and software development. My LinkedIn and GitHub profiles showcase my skills and experience, including projects in web and mobile app development. I take pride in writing clean and efficient code and look forward to contributing to future projects.

WORK EXPERIENCE

Software Developer **Mar 2023 - SEP 2024**
Asia Lanka Developers · Part-time

- Independently developed and implemented large-scale systems for clients such as:
  - Depalalanka.lk and Galabedda Water Bottle Company: Managed the entire project lifecycle from conception to delivery.
  - Fincro Holdings: Successfully led the development of their official website.
  - Hotelia: Developed a comprehensive hotel management system.
  - Ko Sri Logistics: Designed and deployed both the logistics system and the company's website.
  - Taxia Cabs: Led the development of a full-featured admin system for a new taxi service.

- Played a significant role in the development of a custom POS system for retail clients.
- Collaborated with cross-functional teams to achieve project milestones and deadlines.
- Demonstrated strong analytical and problem-solving skills in resolving technical challenges.
- Contributed innovative ideas and solutions in team meetings, improving overall workflow.
- Assisted in project management tasks to ensure smooth operations and timely delivery.

EDUCATION

BSc. Honours Degree in Software Engineering **(Reading in 3rd Year)**
Sabaragamuwa University of Sri Lanka

Diploma in Developers stack Master program **2023- 2024**
Developers Stack Academy

PROJECTS

MedExplorer (Group)
MedExplorer is a smartphone app that streamlines prescriptions by converting handwritten notes into machine-readable text with Machine Learning (ML).

React Native | Node.js | Express.js | Flask | Cloud Firestore | TensorFlow

Discovering Sri Lanka's Best Sales.
we specialize in web scraping technology to gather data from various vehicle sale websites. Our platform is designed to provide you with comprehensive and up-to-date information on vehicles available for sale across the web.

React js | Fask | Web Scraping

SUSL-LMS (Group)
Developed a mobile application for a Learning Management System (LMS), designed for both students and lecturers

Flutter | PHP
