

Sudharana Hewage

Engineering Undergraduate

sudharana.ms@hotmail.com
+94 77 6572153
www.linkedin.com/in/sudharanahewage

An enthusiastic and self-driven professional seeking a role in the innovative application development industry where I can leverage my passion for technology and contribute new ideas while working collaboratively with a team.

Interests

- ✓ Data Structures & Algorithms
- ✓ Artificial Intelligence
- ✓ Distributed & Cloud Computing
- ✓ Knowledge Sharing & Social Work
- ✓ Physical Activities (Swimming, Hiking)
- ✓ Board Games (Chess, Carom)

Non-Technical Skills

- ✓ Agile/Scrum
- ✓ Video Editing (Premiere Pro)
- ✓ Graphic Designing (Photoshop/Illustrator)
- ✓ Communication/Presentation
- ✓ Event Organizing/Managemment

Projects

Loan Management System (Web Application)

The objective of this project was to conducted to implement a web application to develop loan management system is a computerized platform that helps to automate each step of the loan lifecycle, from application using HTML, CSS, JavaScript, and MySQL.

MySQL | JavaScript | React | CSS| HTML | Firebase

Automatic Smart Filling Weight Unit

This innovative system was designed to automate the filling and weighing of products, reducing human error and increasing productivity. The development of this machine showcased my skills in system design, automation, precision control, and data analysis

PCB Design | Embedded C | Arduino

Library Management System Software

The project was focused on building a database driven library management system. This was developed using Java programming language in Apache NetBeans, PhpMyAdmin and MySQL database.

Visual Studio | Java | SQL | PhpMyAdmin | Firebase

Tools and Technologies

Languages/ Web suit:

Good with: JavaScript, Python, C, HTML5(+CSS3)
Worked with: Java, PHP

Runtimes, Frameworks & Libraries:

Good with: React, Node.js, Spring Boot, Bootstrap
Worked with: Angular, Express.js

Database:

Good with: MySQL, PL/SQ
Worked With: Firebase, MongoDB

Version Controlling and CI/CD:

Good with: Git, Github, Docker
Worked with: Kubernetes

Development:

Worked With: Visual Studio Code, MathLab Simulink, NPM

Cloud Computing:

Good With: AWS

Environments (Envs):

Worked with: Windows, MacOS, Ubuntu, Arduino, RaspberryPi

Education Qualifications

BSc (Hons) Electronics Engineering

SLTC Research University, Padukka
Feb. 2020 - Present

G.C.E A/L (Physical Science - 3C's)

St.Mary's College, Matugama
Jan. 2012 - Aug. 2017

Extracurricular Activities

IEEE IES of SLTC

Circuito (2021) - Design Team [Head]
Nanospark'21 - Cordination Team
Knowledge Hub 3.0 - Program and Technical Team
Let's Read (2020) - Public & PR Team
