Profile

I'm a dedicated UI/UX designer based in Sri Lanka, I'm passionate about solving complex problems through effective design. My approach prioritizes strong analytical and user-centric design, delivering functional, research-based holistic solutions. I thrive in multitasking and have an eagerness to continuously learn.

Project Experience

Beam Vibe - UI/UX Case Study

July 2023 - Sep 2023 · Project Link

Designed Beam Vibe, an intuitive music event discovering app, streamlining ticket purchases and delivering personalized event recommendations for an enhanced user experience.

- This explores user pain points in music event discovering and provides innovative solutions through research, design thinking and comprehensive analysis of user feedback and questions.
- As a UI/UX designer, I successfully enhanced user experiences through research-driven design, user personas, intuitive interfaces, and seamless navigation, meeting user needs effectively.

NatureLux - E-commerce Website

June 2023 – July 2023 · Project Link

Freelance UI/UX project, Crafted NatureLux's brand identity and designed a sustainable luxury-focused E-commerce website for this premium organic pillow brand.

- Designed an intuitive E-commerce website to enhance the shopping experience, providing comprehensive product information and an easy-to-navigate interface.

AVIARY CEYLON - Business Website

Feb 2023 – May 2023 · Project Link

Creating an intuitive website to emphasize their dedication to seamless global trade, prioritizing user experience to attract customers worldwide in the competitive import and export market.

- Creating an attractive brand identity with an attractive logo and creating a business website ensuring an engaging user experience through meticulous design process for visitors exploring the world of international trade.

Education

Bachelor of Information Technology

2020 - Present · University of Moratuwa, SL

- Holder of a Level 2 Higher National Diploma, having successfully completed all final-year exams and projects, and currently awaiting results.
