Education

B.Sc(Hons)in Information Technology
- Sri Lanka Institute of Information Technology (SLIIT) (Reading in 3rd Year)
  2023 - 2026

GCE A/L - 2021 (Commerce Stream)
- Girls' High School Kandy
  2019 - 2021

GCE O/L - 2019 (Tamil)
- Girls' High School Kandy

skills

Technical Skills
- Programming Languages - C,C++,Java,Phython,Kotlin
- Web Development- HTML,CSS,JavaScript,React.js
- Database Management- MongoDB, MySQL
- Frameworks -MERN Stack,Android Studio,Spring boot

Soft Skills
- Team Colloboration
- Creativity
- Innovative Problem Solving
- Good Preesnting and Communication Skills

Language

- English
- Sinhala

Profile Info

Motivated and detail-oriented full-stack developer with hands-on experience in the MERN stack, Java MVC architecture, and mobile application development. Proficient in building dynamic, user-friendly interfaces, integrating RESTful APIs, and implementing robust CRUD functionalities. Passionate about problem-solving and eager to contribute to real-world software development projects through internship opportunities in the IT industry.

Academic Projects

Swarna Bridal Wear Website (Group Project | MERN Stack)
- Developed a full-stack bridal wear web platform with features including user authentication, inventory management, rental and order processing, and role-based employee access.
- Implemented RESTful APIs for backend operations and created admin dashboards for managing system components.
- Technologies Used: MongoDB, Express.js, React.js, Node.js

Online Property Management System (Group Project | Java MVC)
- Built a full-stack web application with property listings, secure payment handling, and user feedback features.
- Technologies Used: Java MVC, J2EE, MySQL

FurniHeaven – Smart Furniture Management Platform (Group Project | MERN Stack + Java MVC)
- Developed a full-stack furniture e-commerce system with inventory, supplier, cart/payment, and delivery management.
- Integrated an AI-powered design assistant for visualizing room layouts with selected furniture.
- Technologies Used: React.js (JSX), Node.js, Express.js, MongoDB, Java MVC

MY-TO-DO Mobile App (Individual Project | Android)
- Developed a mobile task management app with features such as CRUD operations, task prioritization, stopwatch-based time tracking, and alarm-based reminders.
- Technologies Used: Kotlin, Android Studio, Shared Preferences
