PROFESSIONAL SKILLS

Languages

- Java
- Javascript
- PHP
- Node js
- Python
- C++
- Dart

Technologies & Frameworks

- MERN-Stack
- MEAN-Stack
- Flutter
- Github
- MongoDB
- Android Studio
- Tensorflow
- Colabs
- Docker
- Arduino
- Tailwindcss

Technical Skills

- Object Oriented Programming
- Clould Technologies
- Prompt Engineering

TD JAYADEERA

SELF - TAUGHT FULL - STACK DEVELOPER

Undergraduate at SLIIT

I am a passionate software engineering student, self-taught Full-Stack developer, AI researcher, and tech enthusiast. My love for learning and researching has been with me since childhood, and I am dedicated to making a positive impact in the tech community. I am already a second year student studying software engineering in a private university.

EDUCATION

- **SRI LANKA INSTITUTE OF INFORMATION TECHNOLOGY**

  BSc.(Hons) in Information Technology - Specializing in Software Engineering

  - MS club member at SLIIT

- **VIJITHA CENTRAL COLLEGE, DIKWELLA**

  (G.C.E) Advanced Level - Technology Stream 2020
  Passed Ordinary Level exam.
  Passed Advanced Level exam.
  Subjects - ET, SFT and ICT

- **UDACITY**

  AWS Al & ML scholarship degree, Artificial Intelligence

PROJECTS

- **Real Estate App using MERN and tailwind CSS**

Introduction : The Mern-developed online Estate Buy and Sell System

Technologies :

Frontend
(Vite , tailwindcss , material ui , swaper , material ui)

Backend
(nodejs , Firebase , Mongoose , JWT Token, Bcrypt , nodemon)

Deploy
(Render)

Host: https://mern-estate-tq1j.onrender.com/

GitHub : https://github.com/tharusha-dilhara-dev/mern-estate.git

Architect : MVC Architecture

Support: github copilot , stack overflow

CERTIFICATES

Coursera

Linux

- Fundamentals of Red Hat Enterprise Linux
- Foundations of Red Hat Cloud-native Development

Azure

- Artificial Intelligence on Microsoft Azure
- Microsoft Azure Machine Learning

AWS

- Building Modern Python Applications on AWS

Android

- Introduction to Android Mobile Application Development

Others

- APIs in Node.js: Write a REST API Backend Application
- Docker for absolute beginners
- Python for Data Analysis: Pandas & NumPy
- Start Your API Test Journe With Postman Tool

Sololearn

- Java Intermediate
- React + Reduxc
- Introduction to C
- PHP

SLIIT

- AI/ML Engineer

Microsoft

- Microsoft Learn Al Skills Challenge

University of Moratuwa

- Python for Beginners

OTHER SKILLS

- Creative Problem Solving
- Fast Learning
- Creative Thinking
- Team Working

- **Personal portfolio using MERN and tailwind CSS**

Introduction : The personal portfolio system developed by mern web application

Technologies :

Frontend
(Vite , tailwindcss , material ui , swaper , material ui)

Backend
(nodejs , Firebase , Mongoose , JWT Token, Bcrypt , nodemon)

Deploy
(vercel)

Host: https://tdjayadeera.vercel.app/
GitHub : https://github.com/tharusha-dilhara-dev/tharusha-dilhara-jayadeera-portfolio.git
Architect : MVC Architecture
Support: chatgpt , stack overflow

- **SLEP (STUDENT LEARNING EASILY PLATFORM)**

Introduction : The personal portfolio system developed by mern web application

Technologies :

Frontend
(Flutter)

Backend
(Laravel Api , AWS , jwt)

Deploy
(AWS)

GitHub : https://github.com/tharusha-dilhara/SLEP.git
Architect : MVC Architecture

- **Password Strength Prediction App (Machine Learning)**

Introduction : “Password Strength Prediction App“ is an app that shows password strength created by training a machine learning model on a labeled data set of different letters and special symbols that people use in passwords.

Technologies : (Python , Kaggle , sklearn , numpy , pandas)
GitHub : https://github.com/tharusha-dilhara/password_strength_checker.git
Analysis: Linear regression

- **Google Search Result Gathering Excel Sheet**

Introduction : "Google Search Result Gathering Excel Sheet" is an automatic tool that can be taken into a data sheet. This was created by me to create data sets required for machine learning.

Technologies : Selenium , Python

- **Epiyasa (LMS)**

Introduction : "epiyasa" is a web application designed for kids to manage their learning activities and for teachers to make learning activities effectively. Originally an app made in php programming when I was in school.

Technologies : (PHP , Mysql , Bootstrap)
Web : http://epiyasa.rf.gd/

INTERESTS & HOBBIES

- Artificial Intelligence
- Robotics
- Photography
- Videography
