PROFILE

I'm Yasindu, a multidisciplinary developer specializes in front-end web development & who focuses on making interactive websites & giving users smooth experiences. I worked as a gamedev for like five years earlier in my life.

PROJECTS

CryptoDora

https://cryptodora-app.web.app/

https://github.com/YasinduNethmina/cryptodora-crypto-app

Lead Frontend Developer

CryptoDora is a complex real-time crypto charts, news, stats and market alerts website. Users can track their crypto portfolio, interact with the live community using this application. Also CryptoDora supports ETH explorer.

- Developed the entire application with both Frontend & Backend.
- Used Firebase as backend to handle real-time data, authentication & chat.
- Pages management using React Router & handled REST APIS with api chaining method using React Query + Axios.
- Implemented mobile friendly UI & light theme.
- Added much more filler features like crypto bubbles, crypto heatmaps etc.

Portfolio Website

https://www.yasindu.me/

https://github.com/YasinduNethmina/portfolio-app

Frontend Developer

This is a modern website, every part of the website specially designed to showcase my technical & soft skills. My main goal was to make it simple & interactive. So you'll see many interactive features throughout the website.

- Implemented this entire website using Next Js + Typescript.
- Used mostly tailwind as a css library during the development with MUI.
- Created this website with SSR techniques in mind, so super optimized & also mobile responsive. (Used almost all Next Js SSR features)

Natours Booking Website

https://booking-website-24a49.web.app/

https://github.com/YasinduNethmina/booking-website

Frontend Developer

Natours is a simple website created using plain JavaScript and CSS to show my advanced CSS animation skills. The website is hosted on Firebase.

- Implemented complex menu bar animations using css.
- Advanced Component rotation animations on hover with smooth scroll.
- Developed thinking about the mobile UI aspects as well.
- Added on load image loading system to gain max performance.

EDUCATION

Physics, Combined Maths, Information & Com. Technology

Kularathna College

SKILLS
