ABOUT

Experienced software engineer with **8+ years** of industry practice and a **master's degree** in software engineering. Looking for an opportunity to make a worthwhile contribution while **learning and growing.** Interested in **compilers and programming languages** and would love to work in a such field. I wrote my first interpreter when I was 16. Wrote first Compiler (to x86 ASM) when I was 18 years old.

INTERESTS

Programming languages
System design

TECHNOLOGIES

Languages	**Python 2/3, Java 6-11**, **Kotlin**, JavaScript, C++17, C99
Backend	**Flask**, Django, Hibernate
Database	Postgres, MySQL, Oracle 12c, SQLite, Elasticsearch, Redis, SQLMX
Frontend	React, Redux, HTML, CSS
Native	Android, Win32
Desktop	JavaFX, Swing, Qt 5
Testing	TestNG, **Junit**, **unittest**, PyMock, **Mockito**, **mockk**
Practices	**Scrum**, TDD
Web Servers	nginx, gunicorn, Apache, Tomcat, Jetty
CI	Jenkins, Bamboo, Travis CI
Tools	**Git**, **Jira**, Maven, gulp, npm, pip, Sonar, **Docker**
Management	Mentored 5 juniors. Fleet cost lead. Simplified knowledge-sharing. Code/Design/Doc Reviews.

Bold – Recently used & more familiar.

REFEREES

Will be provided on request.

WORK EXPERIENCE

Nov 2022 – Present
Tech Lead

Improve code coverage. Participate in performance improvement discussions and provided an action plan. Design / Implement #censored# related features (Java / Kotlin). Carry out code reviews. Maintain 80%+ code coverage for new code.

UK, London

Jan 2021 – Oct 2022
Software Development Engineer II
Amazon

Optimized fleet costs analysis with automation (**~60% time saved of PoCs**). Implement ad hoc knowledge ingestion layer. Mentored an intern for an internal research project. Simplify knowledge sharing. Operations PoC. Fleet cost lead.

UK, Cambridge

Jun 2018 – Nov 2020
Software Engineer II ➞ Senior Software Engineer

A 200% increase of meaningful code coverage. Improved user interface for SOC application. Did **code reviews**. Improve calling an API with set of nodes (20x). Mentored an intern. **Harden** backend Flask service by collaborating with SREs and DevOps.

UK, London

Feb 2018 – May 2018
Senior Software Engineer
Hitachi DPS (Interblocks)

Translated queries from Oracle 12c to SQLMX to use with Apache Cayenne. Worked with JAX-RS and **Swagger** based backend API. Implemented certain new **REST API** for banking application backend. Introduced **unit tests.**

Sri Lanka

Mar 2016 – Jan 2018
Software Engineer
London Stock Exchange Group

Millennium Exchange: Developed **Java** DSO Layer. Custom Cache for DSO - Performance gain was 470%.

Sri Lanka

EDUCATION

2015 - 2017
Advanced Software Engineering
M. Sc. Degree, Distinction Pass

71% average marks. Implemented **microservice** based image processing and machine learning powered service to recognize 25 different Sinhala characters from nameboards. **Python**, Scikit-Learn, **Android**, C#

University of Westminster, UK

2011 - 2014
Information Technology
B. Sc. Degree, 2nd Upper

3.45 CGPA. Full scholarship for a semester for getting 4.0 GPA for a semester. **Cross-platform** LAN based protocol for a multiplayer card game.

Sri Lankan Institute of Information Technology

VOLUNTEER EXPERIENCE

Mar 2018 & Mar 2020
Google Summer of Code Mentor

Acted as a Google Summer of Code Mentor in association with **SCoRe Lab**.

Sri Lanka

Dec 2017 – Feb 2018
Google Code-in Mentor

Acted as a Google Code-in Mentor in association with SCoRe Lab.

Sri Lanka

Nov 2015 – Feb 2016
Lead Developer
